TRANSITIONING IN THE CONTEXT OF UHC

Friday, 25 May 2018, 12:30-14:00
Auditorium Ivan Pictet, Maison de la paix

Sustainable, additional and predictable health financing from international and domestic sources is required to strengthen health systems and move towards Universal Health Coverage (UHC), while preparing for transitions. Health financing must be at the core of these discussions if we are to achieve the Sustainable Development Goals (SDGs) and the vision set out in the WHO's 13th General Programme of Work for the coming five years. This event will serve to achieve a better understanding of the roles and opportunities that both donors and recipient countries have in ensuring long-term, sustained and positive health outcomes when donor funding and support reduces and/or changes in nature. This debate will be a crucial opportunity to share learning, present challenges and best practice and to galvanise support for sustainability and transition policies across bilateral and multilateral donors.

WELCOME

Michaela **Told**, Deputy Director, Global Health Centre,
the Graduate Institute, Geneva

OPENING REMARKS

Jenny **Vaughan**, Advocacy Officer, STOPAIDS

PANEL DISCUSSION
