SPEAKER

MONIRUL AZAM

Associate Professor in Law, Södertörn University; Adjunct Faculty in Intellectual Property Law, Stockholm University

Monirul Azam is an Associate Professor in Law at the Södertörn University, Stockholm, and Adjunct Faculty in Intellectual property (IP) law at the department of law, Stockholm University. He is the founder and director of StockholmIP and Sustainable Development Consulting. Much of his academic research, consulting and teaching experience has been oriented around today's most crucial sustainable development policy questions at the intersection of IP law and public health, IP and climate change, IP and technology transfer, climate vulnerability of the Least Developed Countries (LDCs) and capacity building under the climate change and environmental law. He holds a PhD in IP law from the University of Bern, and an LLM in IP. He obtained a diploma in Computer Studies from Singapore, and LLB (Hons) and LLM at the University of Chittagong (Bangladesh). He worked as JSPS-UNU postdoctoral fellow at the United Nations University Institute for the Advanced Study of Sustainability for around two years in role of intellectual property and environmental law for achieving the 2030 Sustainable Development Goals. Dr. Azam worked at the Stockholm University as Associate Professor in IP Law between 2018-2019. He developed and taught IP and sustainable development to master's students as a course director and supervised undergraduate and postgraduate theses in IP law at the University during five years. He taught IP Law at the Uppsala University, Linköping University, and several other Swedish universities as a guest faculty for several years. He worked at the University of Chittagong as Associate Professor of law for several years and taught and supervised undergraduate and postgraduate students in the field of IP and commercial law. He acted as a trainer and resource person in IP law and sustainable development to train mid-level and high-level governmental officials from more than thirty developing countries and the LDCs as part of the WIPO-SIDA-PRV training programme and other programmes at the Swedish IP office for the last ten years. Dr. Azam has presented in numerous international conferences, workshops, and training programmes as an invited speaker and has also extensively published papers in peer-reviewed international journals in the field of intellectual property law and environmental law.

DISCUSSANT

SANGEETA SHASHIKANT

Coordinator Development and Intellectual Property Programme, Third World Network

Sangeeta Shashikant is the coordinator of Third World Network's Development and Intellectual Property programme. She has 15 years of research and advocacy experience in intellectual property and public policy matters in particular access to medicines. She monitors and engages with international discussions at the World Health Organization, World Intellectual Property Organization and the World Trade Organization. She has authored several articles on the topic of transition period for least developed countries.

MODERATOR

MARCELA VIEIRA

Project Coordinator of the Knowledge Network for Innovation and Access to Medicines, Global Health Centre

Marcela Vieira is Project Coordinator of the Knowledge Network for Innovation and Access to Medicines, a project of the Global Health Centre. She has a background in Law and Social Sciences, with a specialisation in Intellectual Property Law and New Technologies of Information and holds a masters degree in Public Health from the Universidade de Sao Paulo (Brazil), obtained with a dissertation about alternatives models of innovation for health technologies. Prior to joining the Global Health Centre, she was coordinator of the Brazilian civil society Working Group on Intellectual Property (GTPI) and legal consultant and researcher at accessIBSA: Innovation & Access to Medicines in India, Brazil and South Africa, a project conducted in partnership with the National School of Public Health/Fiocruz in Brazil. She has been working on access to medicines and intellectual property issues since 2005, in close collaboration with several civil society organisations, mostly from developing countries. She has also consulted for a number of international organisations in the field.
