About the Institute

The Graduate Institute of International and Development Studies is a leading institution of research and higher education dedicated to the study of world affairs, with a particular emphasis on the cross-cutting fields of international relations and development issues.

Through our core activities, we aim to promote international cooperation and make a contribution to the progress of developing societies. More broadly, we endeavour to develop creative thinking on the global challenges of our time, foster global responsibility and advance respect for diversity.

We are a cosmopolitan community located in the heart of Geneva, an international city and a centre of global governance. By intensely engaging with international organisations, NGOs, governments and multinational companies, we participate in global discussions and prepare future policy-makers to lead tomorrow's world.

Centre for Trade and Economic Integration

RESEARCH AREAS AND ACTIVITIES

- CTEI brings together the research activities of eminent professors of economics, law and political science in the area of trade, economic integration and globalisation. It provides a forum for discussion and dialogue between the global research community, including the Institute's student body and research centres in the developing world, and the international business community, as well as international organisations and NGOs. The Centre runs research projects and organises events, and occasionally hosts a visiting scholar.
- CTEI has launched three new initiatives that will radically transform its reach and impact: Geneva Trade Platform, The Thinking Ahead on Societal Change Platform and the Digital Governance Hub
