*En 2016, l’Association a créé les Alumni Awards dans quatre catégories : Alumnus/Alumna of the Year, Young Alumnus/Alumna, Commitment to the Institute and Alumni Association et Lifetime Professional Achievement. En 2021, quatre nouveaux Awards ont été lancés, en lien avec les initiatives stratégiques lancées par Marie-Laure Salles, directrice de l’Institut depuis le 1er septembre 2020, à savoir Art & Culture, Diversity, Equity & Inclusion, Peace, Sustainability.

L’alumnus de l’année 2022 est Dr. Omar A. Touray, Gambian Diplomat and President of the Commission of the Economic Community of west African States (ECOWAS).

Bourses et prix

The Alumni Community Scholarship was established in 2013 to fund the academic and living expenses of a student in financial need for a year. Funds for the scholarship are collected through direct donations on the Alumni Scholarship webpage and also during a raffle and silent auction held at the annual Alumni Reunion, which reunites alumni from around the world each year. This year, the scholarship goes to

*REETUPARNA VISHWANATH who is pursuing her Master in International Economics (IE). In 2019, she joined the Hanken School of Economics, Finland to complete an MSc in Economics, where she received the Premium Scholarship (100%). Her theses studied the impact of women leadership on corporate boards of public companies. In 2021, she received the Alumni Community Scholarship, which enabled her to pursue a second master in International Economics at the Geneva Graduate Institute and be a part of its vibrant and diverse spirit.
The **New York Alumni Chapter Scholarship** was created in 2019 to promote awareness of the Graduate Institute in the United States, while also helping the Institute recruit graduate students of high calibre.

*RUOYI SONG is pursuing her Master in International Economics (IE). As a first-generation college student, her master’s studies would not have been possible without this scholarship. With pressure at home, it also helps her to feel confident in her choice and pursue employment opportunities that make a real impact, working for people in the last mile. She will focus on development economics and impact evaluation while open to application in different disciplines such as health, energy access, and gender, all exciting topics that the Graduate Institute offers to explore. She is hoping to write her thesis on applied microeconomics. She firmly believes in using an evidence-based approach in making policy with a human touch. Being an avid reader of critical social theory, she wants to bring this perspective to International governance. In the future, Song Ruoyi would love to work for international organizations in both headquarters and field positions, eventually developing an expertise in a certain topic while focusing on interdisciplinary solutions.*

**Rapport financier**

Anne Kathrin Funk a reçu le prix de la meilleure thèse de doctorat en économie internationale pour *Essays in Empirical Monetary Economics.*

Le compte de l’AAID est désormais clos et le montant du prix est financé avec la levée de fonds pour la bourse des alumnae-i.
