

Sandra Tobler | Class of 2008

Sandra Tobler is the co-founder and chairwoman of Futurae Technologies AG, a cybersecurity company that strengthens data protection with reliable authentication and online fraud prevention. Futurae protects millions of online users in a context where data is valuable and prosecution complex. Sandra Tobler's vision and efforts to reshape digital security led Futurae to be ranked among Switzerland's top 100 startups between 2018 and 2021. Sandra Tobler is a pioneer in the tech industry, empowering young entrepreneurs, especially women, who remain underrepresented in the field.
